THE 100TH ANNIVERSARY OF THE MONTHLY CATALOG

This year, 1995, marks the one hundredth year of publication for the ***Monthly Catalog of United States Government Publications.*** In the preface of the January 1895 issue the Superintendent of Documents, Francis A. Crandall, expressed the hope that it would be the "initial number . . . [in] . . . a long series of official Monthly Catalogues."

Over the years many changes have taken place. The ***Monthly Catalog*** originally was known as the ***Catalogue of Publications Issued by the Government of the United States.*** In April 1895 the name was changed to ***Catalogue of United States Public Documents.*** Other title changes occurred before the current title was selected in 1951. The organization of the January 1895 issue was somewhat similar to the current issues in that citations for publications within the catalog were grouped by the Federal organizations publishing them; however, this catalog did not include an overall arrangement by GPO classification number.

A dramatic change took place in 1976, when ***Anglo-American Cataloging Rules*** were first used to catalog publications appearing in the ***Monthly Catalog.*** Availability of the ***Monthly Catalog*** in electronic formats, first on tape and later in other formats, has enabled GPO to make information on Federal documents available to a greater number of people. Over the years the ***Monthly Catalog*** has been useful to the public, depository librarians, and to those in government. With the advent of the "information age," many changes in the way the Federal government provides information to its citizens have taken place. The need to inform citizens about their government will continue. We expect that the ***Monthly Catalog,*** in various media, will continue to function as a primary resource for identifying and locating information published by Federal agencies.

Those of us responsible for the ***Monthly Catalog*** are proud to be associated with this effort:
